PERMITTEE/LICENSEE AUTHORIZATION
OF HANDLING ELECTRONIC BINGO DEVICES

All electronic bingo devices must adhere to the statutes and regulations set out in AS 05.15.180 (a), 15 AAC 160.570 (e), and 15 AAC 160.995 (7) prior to being used in the conduct of gaming in the State of Alaska.

The Department of Revenue will approve the use of handheld electronic bingo devices upon representation, under penalty of unsworn falsification, that the equipment listed below complies with the following requirements:

- 1) the device must replicate a traditional bingo hard card;
- 2) it must not be capable of connection to a random number generator;
- 3) it must not be capable of being played without direct player participation;
- 4) balls must still be randomly selected by an operator from an appropriate device and the number "called" and displayed to all players; and
- 5) the player must key in the precise numbers or separately mark by a touch on the display to play the number called, correct errors, or catch up on missed numbers.

Description of Device

Manufacturer _____

Model * _____

Number of Machines _____

*** Modifications of software or hardware require an updated authorization.**

Your signature, under penalty of unsworn falsification, represents to the Department of Revenue that these machines comply with the requirements listed above.

Misrepresentation or modification of the handheld electronic bingo devices will lead to a notice of violation and or suspension of license or permit.
